

GRANVILLE ENTERTAINMENT GROUP

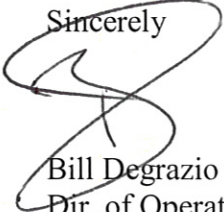

To Whom It May Concern:

Granville Entertainment has used BBS Systems for all our draft beer & liquor dispensing systems at numerous locations for almost 20 years now. We have always trusted their ideas, solutions and installations over the years.

They have just recently finished renovations at both The Roxy and Doolins and everything has been great. The beer is cold and the systems are problem free. BBS have made it very user friendly for us by keeping everything extremely neat & organized. There are labels on everything in the cooler and the rest of the equipment. We have 50 beer lines at Doolins at a couple bars so this is very important for us.

They regularly maintain our beer lines as well as our glass washers. I would recommend BBS to anyone wanting a premium draught beer system. It is also comforting to know we can get a hold of them anytime with any kind of service issue no matter what time it is. They are a very professional bunch.

Sincerely

Bill Degrazio
Dir. of Operations
