RE: BBS Systems.

To Whom It May Concern:

I don't know what BBS stands for, but it should be " Better Beer and Service".

We recently opened a 5050 sq.ft. pub with 24 beer taps in the main bar and 12 taps upstairs on the roof top patio, draft checker program, and therefore requiring a sophisticated beer system. I knew what I wanted and knew a little bit about draft lines, so I got three quotes for my requirements. Comparing apples to apples and talking to different pubs it came down to two companies to install the lines. BBS was new and out of Vancouver, but very aggressive, and more money, the other company was well known, cheaper but cocky. I picked BBS and I'm so glad I did. Darren and the boys worked night and day to get the install on time and did so with no problems or excuses. The service is incredible, the product is excellent and the boys come by every now and then to check up on us. When we open our next pub, I won't need to get three quotes.

~~Cheers,~~
