

GREY EAGLE CASINO & BINGO
3177 Grey Eagle Drive
Calgary, Alberta

Grey Eagle Casino and Bingo opened in December 2007 at the corner of Glenmore Trail and 37th Street Southwest Calgary. This 86,000 square foot building has two full service bars and two full service restaurants including 8 draught beer and a myriad of liquor lines. Having gone through the processing of collecting bids and doing site inspections of equipment from various draught line / alcohol equipment installers, BBS Systems was the chosen vendor, and to this day, I am extremely happy with our decision.

Mr. Darren Yates and his team are professional, courteous and more importantly prompt when service is required. When service calls are placed to the main switchboard, I have never experienced a wait for a call-back of more than 15 minutes. If and when service is required, the technicians are here in very short time.

I would highly recommend BBS Systems – particularly Mr. Darren Yates and his team of dedicated professionals to any owner / operator who requires services regarding beverage alcohol systems.
